David Vicklund

Full-Stack JavaScript Developer

david@vicklund.com | (425) 943-1353

Summary

```
/*   Chef for a decade, and writer of code for over five years.
     Writer of quality code for more than two years, mostly with JavaScript.
     Java -> HTML/CSS -> JavaScript -> jQuery -> Angular              */
```

Projects

FasterBids Data Viz Suite - Contracted to create a business customer-facing data visualization suite for FasterBids, a construction materials catalogue company. Worked with D3 in Angular, consuming JSON data from a Microsoft SQL back end.

CulinarySoft - Program for chefs and vendors to assist in the purchasing process. Built in five days using JavaScript, jQuery, and Mongo with a team of three fellow students in November of 2015.

Education

- **Code Fellows**...2015-2016
  - Studied full-stack JavaScript development in an accelerated environment.
- **Bellevue College**...2006-2010
  - Focused in computer science, physical sciences, and mathematics.

Work Experience

- Teaching Assistant at Code Fellows (2016-Present)
  - Helping in the professional development of students pursuing careers in web development.
- Line Coach at Joey Bellevue (2014 - 2015)
  - Produced quality, seasonal food daily at a high volume location in downtown Bellevue.
  - The utmost standards of sanitation and expedience are always upheld.
- Line Cook at Tinhorn Flats (2013 - 2014)
  - Gained valuable fine dining experience at North Hollywood and Burbank locations.
  - Catered many parties, concerts, and events with a team of professionals.
- Head Chef at New York Pizza (2005 - 2013)
  - Worked every job, mastered the art of pizza and properly serving it.
  - Formed great relationships with the many employees with whom I've worked.
